Subject: Grease Paint Productions – A Highly Valued Partner

Caring Clowns International (CCI) is fortunate to have Grease Paint Productions (GPP) design, develop and produce all our promotional videos and professionally duplicate our videos on various media for distribution.

The staff at GPP is professional, knowledgeable and efficient. From design through final production they are very supportive, integrating client suggestions well and recommending improvements beyond the client's input.

GPP has what I consider to be a distinct advantage in their business- that is they are motivated to tell their clients' stories in a pure and emotionally gripping manner. Instead of glitzy hype and falsely scripted words for their clients to read, they promote their clients' messages through their clients' personal messages - speaking naturally into the camera, and in so doing, evoking honesty and passion for their missions. In addition, GPP integrates the supplemental footage and music that directly supports the content and tone of the messages.

Our entire video catalog has been done by GPP. I believe their work is substantially responsible for having helped CCI raise the \$51,000 contributed to CCI in 2005.

I continue to highly recommend Grease Paint Productions to others who have a need for video creation and video documentary services. They do marvelous work.

Sincerely,

FOR CARING CLOWNS INTERNATIONAL

Jed "Duffy" Selter
